

TAYLOR-MADE

COMPUTER SUPPORT & TRAINING

Get superior service and fast responses tailored exactly to your needs.

For immediate attention,
call 1-917-992-8094

We help small businesses, non-profits and individuals stay in harmony with their computers.
–Steven Taylor, President

SAVE \$100: 10 hours basic training package only \$750

I have a talent pool of computer professionals for PC and Mac systems.

We offer **on-site**, flexible, even urgent, technology assistance for the **New York City**–area

Let's talk about the **technical issues** first. They fall into a few categories:

- Tune-ups and upgrades
- Adware/spyware and virus removal
- Data backup and security
- Networking and wireless connectivity

We do **training**. We teach people to use their computers better. My slogan here is that "1-on-1 works best!" and if you've ever tried it, you know that's true.

- I do some of this work myself, and I assign seasoned trainers for specialty programs. We work mostly in the Microsoft Office suite (Word, Excel, PowerPoint, Outlook) and with Adobe product families (especially Photoshop).
- Synchronize your smart-phones.
- Learn to use your iPad and iPhone.
- We're particularly adept with novices and seniors, and patient with the reluctant.

Please [click here for pricing](#). Prices are by the hour. There are no hidden costs, so you know what to expect. Nobody likes surprises when it comes to the bill.

- For technical support, pricing is based on the number of computers involved, with a sliding scale of hourly rates.
- For training, there is a basic rate for standard programs and cell phones, and a higher rate for advanced and specialty programs. Group discounts are possible.
